

# 3560/3600 Gateway Controllers

The leading high performance gateways

NETWORKS

# NC-3560 Gateway Controller

- 200 concurrent users
- 400 concurrent users (pair)
- Rich local portal page or redirect
- Local flexible authentication
- RADIUS authentication
- Terms of Use

# Transparent Client Support

- Auto-IP aka “plug n play”
- Dynamic VPN provisioning
- SMTP redirect
- HTTP auto-proxy

# Control and Security

- Stop and track P2P and file sharing
- User based and global Bandwidth Control
- Session limiting
- Denial of Service Protection
- Built-in firewall
- SSL

# VLAN and Routing

- Up to 256 VLAN IDs
- Subscriber VLAN
- Port based VLAN
- Supports standard static routes

# Management

- Web, SNMP
- Local or remote Syslog
- Port forwarding
- Access Point Monitor
- VPN tunnel termination

# NC-3600

- High performance gateway controller Ideal for larger guest networks
- 150 Mbps of throughput, over twice that of the NC-3560, and two can be stacked for 300 Mbps
- Accommodates 500-1000 users
- Optional PMS interface available with the 3600
- Same great features as the 3560

# Report Portal

- Web-accessible, easy to use, long term reports on **all** NC-3560 and NC-3600 sites
- Monitor bandwidth and usage at each site
- Identify network abusers based on ports and up/down bandwidth
- Store user connection logs in case of ISP illegal download warnings

The screenshot displays a web-based report portal for ARIES. The main content is a table with columns for Site, IP Address, Date, and Usage. The table lists various sites and their corresponding IP addresses, with usage data for each. The table is titled 'Report Portal' and includes a search bar and navigation controls.

Site	IP Address	Date	Usage
ARIES	192.168.1.123	2012-02-23 08:26:17	50,000,000,000
