SuperAP™ 670acn IA2

Overview

- ❖ 802.11ac/n 27 dbm transmit power adjustable radios

- ❖ -93 dbm peak receive sensitivity ac or n mode
- ❖ Built-in 10 dBi 2.4 GHz and 5 GHz MIMO flat panel antennas

- ❖ 1 Gigabit Ethernet LAN port

- ❖ Power over Ethernet

- ❖ NEMA4, moisture proof, *lightning protection*

Performance and software

- ❖ 1167 Mbps throughput
- ❖ Integrated SuperTrans technology
- ❖ Band Steering
- ❖ Beamforming

- ❖ Wireless multimedia technology guarantees video/traffic shaping

- ❖ Multi-hop technology, point-point and point-multpoint

- ❖ TDMA and MIMO

Security and Management Features

- ❖ Wireless client isolation
- ❖ Web based management
- ❖ SNMP

- ❖ WPA2

Environment and Regulatory

- ❖ CE mark
- ❖ One year hardware warranty
- ❖ FCC part 15 class b
- ❖ VCCI class b
- ❖ -20 c to 70 c (-4 F to 150 F)
